Hold The Line, America! Report Warns Entire Companies Quitting Over Mandates, Causing Business Breakdowns Nationwide, As NY Hospital Stops Delivering Babies As Nurses Bolt Over Mandates

- There's Never Been A More Important Time To Be Prepared Than Now

By Stefan Stanford - All News Pipeline - Live Free Or Die

With '*rules for thee but not for me*' one of the hallmarks of tyranny (and hypocrisy!) and having no place in any true free society such as America, and [this report coming out from Newsweek](#) that Congress and their staff are exempt from 'Joey Stalin's' latest '*vax mandate*', along with other groups of '*the exempt*' [such as illegal aliens](#), we're not the least bit surprised that Americans

are fighting back '*en masse*' against this rush towards a full-scale dystopian society.

As we had reported just days ago on ANP, [America's First Responders were preparing to stand up to 'vax madness'](#) in huge numbers and now we learn the [entire police department in Kimberling City, Missouri, including the Chief of Police there, have tendered their resignations](#), showing the rest of America one way its done when medical tyranny is pushed in our faces.

Catching the town's mayor completely off guard and leaving a huge hole in protection for the citizens of that city, we see that Americans can still peacefully fight back against this unfolding madness, with another recent thread that I came across yesterday also [urging Americans rightfully PO'd about this rush towards tyranny to 'hold the line,'](#) because it's all about ready to come crashing down.

As we'd also reported on [ANP just days ago in this story](#) titled "*America Reaches A Perilous Crossroads As Even The Mainstream Media Warns A Nightmare Scenario Is Hitting Our Labor Force, Food And Supply Chains,*" huge businesses in the Washington DC area, such as the US Postal Service and Washington Gas, were already having worker shortages due to all of the Covid hysteria, and that was prior to 'Stalin's' insane business mandate.

And as the thread we've republished below [from Reddit points out](#), imagine what's going to happen to not only businesses all across America when this happens, but to the already fragile supply chain as well! Stalin and the Democrats are clearly putting America in grave danger with their insane, senile decisions! Was that their plan all along?

Info from hundreds of Human Resource Directors

A friend is currently working a campaign calling Human Resource Directors. Part of any sales pitch is finding out what the "pain points" are for them, then use that against them to push the sale through.

Reports throughout the country are that the HR Directors biggest problem is when they announced they were requiring the 'clot shot', THE WHOLE

COMPANY QUILTS AT THE SAME TIME.

Same story over and over and over. They are losing their sh-t over this. Even had one lady break down crying on the phone. The worst hit are anything medical and the schools. Top dogs are having to cover 2-3 job titles as "interim" because they cant find anyone else.

They spoke with a nursing home administrator that had to perform cna duties while pulling 'toilet assistance duties' because there was no one else left to do it. This country as a whole is absolutely REFUSING to take the clot shot despite the threats. If they cant get it above 50% then they will never be able to institute passports. Right now the real numbers are around 30%.

The lunatic Biden worshipers plan to force this through employers is an absolute 100% FAILURE.

IF WE ALL CONTINUE TO HOLD STRONG, THE BUSINESSES IN BED WITH THE GOV FOR THE FED MONEY WILL COLLAPSE. THEY WILL NOT BE ABLE TO MANDATE SH~T WHEN EVERYONE TELLS THEM WHERE TO PUT THAT SHOT. HOLD THE LINE PEOPLE - WE GOT THIS. Though as [America's Frontline Doctors argues](#) in a different look at this entire fiasco, as long as they're able to avoid doing so, 'Americans should not quit their jobs' over this madness. And prepare instead to be fired over it.

As the mandates are increasing and the "deadlines" fast approach, YOU SHOULD NOT QUIT YOUR JOB. Do not be fooled if your boss says you must resign. Make your boss fire you and do not sign anything or agree to anything that says otherwise. Do not agree with "voluntary resignation." If you are fired, you are eligible for unemployment. Anything else and you are not.

If you are fired, you place the costs back on them and you get or you fight for unemployment benefits. Let them experience the burden associated with their choices. Avail yourself of any government dollars that have gone to support those previously unwilling to work. Use all tools and resources you can including the CDC's unlawful mandate to halt rents, etc. We suspect you ordinarily would not take advantage of these systems, but these are extraordinary times.

In the last 18 months we have watched the Communists in America radically change the definition of simple words in their efforts to strip away our rights. Words such as “vaccine,” “herd immunity,” and “cases” have literally been redefined by the Communists to support this power grab. By changing the traditional definition of just four words, these usurpers were able to create, in the minds of the media and the public, a frightening global emergency. Do not allow these tyrants to crush what remains of your rights. Do not “agree” to be fired.

And look what's happening now in the UK, where plans to institute [Orwellian 'vax passports' have been scrapped](#) and now British health minister Sajid Javid has said [he does not expect the country to see any more lockdowns](#) to fight the COVID-19 crisis, while ruling out the use of vaccine passports to allow people to attend mass events.

"I am not anticipating any more lockdowns. I think it would be irresponsible for any health minister around the world to take everything off the table but I just don't see how we get to another lockdown," he told the BBC's Andrew Marr show.

Asked about so-called COVID passports, Javid added: "What I can say is that we've looked at it properly and whilst we should keep it in reserve as a potential option, I am pleased to say we will not going be going ahead with plans for vaccine passports."

This is what happens when people stand up peacefully but powerfully against unfolding tyranny, as any *'just government'* will always need the consent of the

people being governed to function, and the people quite literally having the ability to *'shut it all down'* by withdrawing their consent.

And with any attempts to *'force consent'* upon free people a final line in the sand that well over 100 million Americans will firmly resist, we thus should all make sure we're totally prepared for the breakdowns that are coming with Americans telling employers mandating Stalin's vax to *'take this job and shove it'* while, as we've been reporting over and over again on ANP, America's supply chains are being tanked.

As the first video at the bottom of this story warns us, free people should never give even an inch to a despot. With that video also urging Americans to *'hold the line'*, with [Congress exempt from the vax another sign of evil](#) flowing out of Washington DC into our nation, the video also reminds of this quote from Patrick Henry.:

"Congress may carry on the most wicked and pernicious of schemes under the dark veil of secrecy. The liberties of a people never were, nor ever will be, secure, when the transactions of their rulers may be concealed from them."

(ANP EMERGENCY FUNDRAISER: Due to renewed censorship by *'big tech'* upon ANP articles, we'll be [running an emergency fundraising drive](#) over the next month or so until we catch up on upcoming expenses. We also want to thank everybody who has [donated to ANP](#) over the years. With donations and ad revenue all that keep ANP online, if you're able, please consider [donating to ANP to help keep us in this fight for America's future](#) at this absolutely critical time in US history. During a time of systematic, *'big tech'* censorship and widespread institutional corruption, truth-seeking media and alternative views are crucial, and EVERY little bit helps more than you could know!)

Members of Congress and Their Staff Are Exempt From Biden's Vaccine Mandate

Congress may carry on the most wicked and pernicious of schemes under the dark veil of secrecy. The liberties of a people never were, nor ever will be, secure, when the transactions of their rulers may be concealed from them.

KEEP PREPARING FOR BEAR, AMERICA!

MINIMALISTQUOTES.COM

With millions of Veteran Nurses being fired or resigning due to 'vax mandates' all across the country as reported in [this story over at Medical Kidnap](#) another sign of what's to come, as [Steve Quayle had warned in an important note](#) while linking to that story, *"PASS LEGISLATION THAT THOSE IN THE MEDICAL FIELD REFUSE, AND DESTROY US MEDICAL SYSTEM COMPLETELY - ACCELERATING DAILY!"*

Can you imagine what America is going to look like in the coming months with [America's most educated and those with PhD's being some of the biggest resisters of this vax](#) and now these insane business mandates going out that are some of the most hypocritical pieces of legislation that we've ever seen as long as Congress itself is exempt from this 'vax', along with illegal immigrants! (Are such folks 'super human', unable to be sickened by 'covid' or spread it to others?) Steve's warning hit the nail right on the head; the full-scale collapse of America is accelerating daily before our very eyes. From this important [Medical Kidnap story](#) .:

Do You Want to be Injected with Something Millions of Nurses Refuse to Take and are Giving up Their Careers Over Because it is so Dangerous?

The Pharma-funded corporate media would like the public to believe that nurses who refuse to be forced to take an experimental shot as a condition for employment are a small minority. But are they?

What is going to happen this Fall if the United States loses 50% or more of their nursing staffs? And who else is in the best position to evaluate

the effectiveness or harm caused by the COVID shots, if not the nurses who treat those who are vaccinated in our nation's hospitals?

If you got sick or injured and needed hospital care, who would you rather be treated by: healthcare workers who stand on principles even if it means losing their careers, or healthcare workers who know the truth but are willing to look the other way and follow standard protocols, no matter how harmful or ineffective, just so they can keep collecting their paychecks?

In the 2nd/final video below, we hear from some of these nurses who won't back down to unfolding tyranny, putting their own jobs on the line to warn the American people about what's really now taking place.

With their voices being heavily censored, everybody now reading this story can do their part to make sure that their voices are heard, with [this Medical Kidnap story](#) calling it nothing less than a life and death issue.

So with Congress and their employees exempt from taking the vax, along with illegal immigrants who aren't even here legally in the first place, while US Postal Service workers who visit nearly every home and business across America most every day of the year [were first reported to be exempt, while now we're being told they aren't exempt after all](#), (another sign of the intentionally created confusion that comes along with Orwellian-dystopian governments to [always keep the people confused we were told by Orwell](#) himself,) there's never been a more important time than now for Americans to stay strong, hold the line and be prepared for anything and everything.

Because with the globalists demonizing of law-abiding American patriots being kicked into overdrive on 9/11, with both George Bush and Hillary Clinton '[piling on](#)', while '[Stalin](#)' [seemingly pushes for another horrific civil war in America](#), the true reason he was brought in, [to collapse the country](#), becomes more and more obvious every day.
